WORK EXPERIENCE

SEO Lead | Apr 2024 to Current, On-site
Amanat Shah Group (ASG) - Dhaka, Bangladesh

Amanat Shah Group is a renowned Bangladeshi company recognized for ventures in textiles, e-commerce, tea estates and stock brokerage.

Key Responsibility

- Develop and execute SEO strategies across multiple business units, including eCommerce and B2B businesses, to drive organic growth.
- Diagnosed and resolved complex technical SEO issues (indexing, crawl budget, and core web vitals)
- Researched and targeted high-value keywords, increasing organic traffic through topic clustering and entity-based content strategies.
- Built a scalable backlink acquisition framework using digital PR and white-label outreach partners .
- Mentored 2 junior SEO specialists and collaborated cross-functionally with design, development, and content teams.
- Tracked and reported ROI using GA4, SEMrush, SE Ranking and Google Data Studio dashboards.

Sr. SEO Specialist | May 2023 to Apr 2024, Remote

Daniyal Technologies — Dhaka, Bangladesh

Daniyal Technologies, a sister concern of Neutrix Inc. (MI, USA), specializes in software development, e-commerce and SaaS SEO.

Key Responsibility

- Collaborated with cross-functional teams to implement SEO strategies based on business objectives.
- Executed a comprehensive SEO audit, identified technical issues and resolved.
- Keyword research, content gap analysis and on-page optimization.
- Create a successful link-building campaign for improved website authority.
- Analyzing website performance through various tools like GSC, GA4, Ahrefs and SEMrush.
- Delivered research and strategy reports to clients, aligning SEO goals with client expectations.

SEO Analyst | Feb 2021 to April 2023, On-site

Oikko.com.bd — Dhaka, Bangladesh

Oikko.com.bd is a Bangladeshi CMSME eCommerce platform that empowers local enterprises with a reliable online marketplace and support.

Key Responsibility

- Developed and implemented SEO strategies based on market research and competitor analysis.
- Worked closely with web developers to identify and resolve technical SEO issues.
- Keyword research based on search intent and on-page optimization.
- Find the content gap and develop a content strategy to create high-quality content.
- Developed and executed link-building strategies for improved authority.
- Track, monitor using tools like GA4, GSC, Moz, SEMrush and provide SEO effectiveness reports.

SEO Freelancer

Fiverr | June 2019 to Jan 2021, Remote

Fiverr, a global platform based in Israel, connects freelancers with clients across industries. I offer different SEO services on this marketplace.

Services

- Research on industry-specific low competitive keywords.
- Provide local SEO services, including GMB and NAP citation optimization.
- Implement basic backlink services.
